Hi Calvin and David,

I hope this email finds you healthy and well, and that you all had a safe and joyful Independence Day weekend.

I just wanted to check in on the status of our Class VI permit application for the Mendota project. I believe last time we spoke you thought we would have preliminary feedback on the technical review of our application around this time. Any updates you could offer would be most appreciated.

Also, we discussed setting up a call with EPA's Office of Regional Counsel, CES, and CES' third party data suppliers/vendors, i.e. SEI and IHS, to discuss Confidential Business Information (CBI) and the process going forward. I did reach out to my contacts SEI and IHS but received no response. However, we do plan to re-engage with these companies, including new and additional contacts, to work to set up a meeting in the near term. Does this plan sound acceptable to EPA?

Thank you again for your time. Please don't hesitate to call with any questions. We are still working remotely so use my cell # (listed below).

Best Regards,
-Rebecca

Great. Thanks for working with Cadmus and the State Water Board on this matter, Rebecca.

David and I think that we can use this method as an alternative to receive the information.

Please email me the information as an encrypted file (preferably in a password-protected Adobe PDF so that I don't have to ask our IT department for a permission to download the 7zip software), and then call me with the password of the file.

Thank you for your patience!

Calvin

Just as an update, Calvin,

Shari from Cadmus confirmed they have received and accessed the Narrative with CBI.

I also sent the Narrative with CBI to Janice at the State Water Board yesterday. Though I have not yet heard if she was able to access the file. Once she confirms, I will let you know.

I have not heard yet from CalGEM.

I will continued to keep you informed of the status.

Thanks again,

-Rebecca

Thank you Rebecca

I was able to download the file and I can see the PDF.

As we discussed on the phone, I will save this on Cadmus' secure SharePoint site through which I will be able to share it with others at Cadmus (all of who have been trained on handling confidential documents). I'll make sure they all know not to share the file.

We have one subcontractor (James Walker) who will support the effort –I will share this file and the password with him if he needs to see the confidential images.

Thanks for your help, and have a good day.
